I am really a bit concerned about the lack of response on all fronts in containing this nigger/commie unrest.
No NG deployed, BLM meeting with president to get more gibs, another zone set up, no one held after arrest, pardons all around, monuments destroyed, people dead, government entirely complicit, quarantine lifted and crime legalized if you're a shitskin, more aid to isreal, cops defunding for more nigger gibs, riot control measures being removed from hotspots, no leadership at all.
We don't just look weak here, WE ARE WEAK.

I was awoken from a very sound sleep but the sound of a notification ding.
Grabbed my tablet, looked...nothing.
Sat there a second confus'd, and as I picked it up again to see if I was incorrect:
>the REAL notification sounded.
This is a phenomenon that has occurred a number of times in the past week or cso.
>PRECOG CENTRAL is WOW.

NG was deployed to suppress overt actions, then as OP pointed out, men in gray did their work. The vid is just one open example.
The 'riots' suddenly went a bit softer didn't it?
Not going to disagree with the rest, but this shit takes time. I agree more needs to be done to shut these niggers up because it shakes minorities even blacks too - shattering confidence.
The main issue with this chinese-soros inspired uprising is that it's designed to get the reaction to be public.
If on the other hand if those tearing down statues and such are quietly disposed of, well who can say otherwise if they all have 'accidents'?

I know. Shit's bad and diffcult. 60s, 70s, 80s same thing but now x10 worse and outright out for blood.
But the key is all is anticipated. This shit really is marathon.
Not to mention some medical stuff coming down the pipe. Think age related.
I personally estimated the entirety of 8 year trump presidency needed to get this over with, then chosen successor to lead us to golden age in earnest.
For the children. Great nations are made when we plant trees for them, not us.
Our job may not be to enter the golden land (for some, many majority will make it), but to set the ground work and reverse the damages.
So be it.

At this point any blackpill is understandable. But it's all for the future. I see the way it's flowing and it's necessary to painfully lance the boil before it is cleaned. All are painful.

Blackpill if you will, but I intend to see it through.
Stay with it, sir. We will make it, believe it or not.

You've beaten that horse to atoms, it wasn't a HAPPENING it was cops and leadership cucking.

Roll it up from bottom up, the pawns being CCP chinks, muzzies, diaspora in the 'west' and russia.
I'd give it 50/50 right now and shit is bad, but we will pull through.
Though I would definitely urge OP to pass along what is being said here. some are legit blackpilled anons and I don't think "weed out the weak" is going to cut it at this point. The (((narrative))) is too much to the point where we probably can't afford the fall back to red area option.
Do or die. It's that simple.
